SUMMARY

Passionate and results-oriented Full-Stack Developer with experience in building efficient and scalable web solutions. Proficient in a MERN stack, including front-end development with React and Tailwind CSS, and back-end development with Node.js and Express. Experienced in deploying applications using cloud platforms and managing code with Git. Eager to apply problem-solving and teamwork skills to contribute to a dynamic team

EDUCATION

Bapuji Institute of Engineering and Technology

B.E. in Computer Science and Engineering; CGPA: 7.7/10

DRR Government Polytechnic

Diploma in Computer Science and Engineering; CGPA: 8.8/10

ST Mary's Convent

Schooling; Percentage: 82.72%

Davanagere, Karnataka

Jan 2023 – Jun 2026

Davanagere, Karnataka

Jun 2020 – Aug 2023

Davanagere, Karnataka

Jun 2016 – Mar 2020

PROJECTS

InterviewTalent

Aug 2025 - Working On

Technologies: JavaScript, Node.js, Express.js, React, Tailwind CSS, MongoDB

Live | GitHub

- A full stack interview preparation platform for engineering students. Offers technical, behavioral, and HR interview simulations, resume based interview mode, voice driven mock interviews, and an aptitude learning section.
- Includes AI assisted resume building optimized for ATS, and GitHub integration to import and edit project data automatically.
- The vision is to provide a complete placement preparation package.

ChitChat

Apr 2025 – May 2025

Technologies: JavaScript, Node.js, Express.js, React, Tailwind CSS, MongoDB, Socket.IO

Live | GitHub

- Developed a real-time messaging application using Socket.IO for instant bi-directional communication.
- Designed a responsive and modern UI with React and Tailwind CSS.
- Built a robust backend API with Node.js and Express.js; managed data with MongoDB.

2D Platform Game – Pixel Adventure

Dec 2024 – Jan 2025

Technologies: JavaScript, HTML, CSS, Canvas API

Live | GitHub

- Created a retro-style 2D platformer game with challenging levels, obstacles, and enemies.
- Combined engaging gameplay mechanics with pixel art aesthetics and modern coding practices.

University Database Management System

Jun 2024

Technologies: HTML, CSS, JavaScript

Live | GitHub

- Developed a centralized web-based system for managing university data, including student and teacher information, course administration, and timetables.
- Implemented frontend using HTML, CSS, and JavaScript.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL

Frameworks & Libraries: React, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL

Tools & Platforms: AWS, Vercel, Git, GitHub, VS Code

SOFT SKILLS

Problem Solving, Teamwork, Communication, Leadership

ACHIEVEMENTS & CERTIFICATES

Reached the final round of a Web Development Competition.

HOBBIES

Playing video games and experimenting with game development.

Exploring new web development frameworks and tools.
